

Save a Life

Heroin and other opioid overdoses are a growing problem. If you, or someone you know, is at risk of overdosing, you could save a life with this easy-to-administer nasal spray. Naloxone nasal spray (known by its brand name NARCAN) may counteract the life-threatening effects of a known or suspected overdose.

IT'S FREE

Call one of the locations below for two free doses of NARCAN.

No prescription or insurance required. You may request more if yours have expired or you are out –no questions asked. It's that simple!
